APPENDIX A-45

EXCESS MATERIEL CONDITION CODES/DISPOSAL CONDITION CODES

1. Number of characters: One or two.

2. Type of code: Alpha/Numeric.

3. Explanation: These codes are used within the Defense Materiel
Utilization Program (DMUP) to define the condition of materiel offered,
in terms of condition and estimated cost of repairs.

4. The following codes are assigned:

CODE   DEFINITION

N-1   New or unused property in excellent condition. Ready for
            use and identical or interchangeable with new items
            delivered by a manufacturer or normal source of supply.

N-2   New or unused property in good condition. Does not quite
            qualify for N-1 (because slightly shopworn, soiled, or
            similar), but condition does not impair utility.

N-3   New or unused property in fair condition. Soiled, shopworn,
            rusted, deteriorated or damaged to the extent that utility
            is slightly impaired.

N-4   New or unused property so badly broken, soiled, rusted,
            mildewed, deteriorated, damaged, or broken that its
            condition is poor and its utility seriously impaired.

E-1   Used property but repaired or renovated and in excellent
            condition.

E-2   Used property which has been repaired or renovated and,
            while still in good usable condition, has become worn from
            further use and cannot qualify for excellent condition.

E-3   Used property which has been repaired or renovated but has
            deteriorated since reconditioning and is only in fair con-
            dition. Further repairs or renovations required or expected
            to be needed in near future.

E-4   Used property which has been repaired or renovated and is in
            poor condition from serious deterioration such as from major
            wear and tear, corrosion, exposure to weather, or mildew.

O-1   Property which has been slightly or moderately used, no
            repairs required, and still in excellent condition.

CODE	DEFINITION
O-2	Used property, more worn than O-1 but still in good condition with considerable use left before any important repairs would be required.
O-3	Used property which is still in fair condition and usable without repairs; however, somewhat deteriorated, with some parts (or portion) worn and should be replaced.
O-4	Used property which is still usable without repairs but in poor condition and undependable or uneconomical in use. Parts badly worn and deteriorated.
R-1	Used property, still in excellent condition, but minor repairs required (estimated repairs would cost no more than 10% of acquisition cost).
R-2	Used property in good condition but considerable repairs required. Estimated cost of repairs would be from 11% to 25% of acquisition cost.
R-3	Used property, in fair condition, but extensive repairs required. Estimated repair costs would be from 26% to 40% of acquisition cost.
R-4	Used property, in poor condition, and requiring major repairs. Badly worn, and would still be in doubtful condition of dependability and uneconomical in use if repaired. Estimated repair costs between 41% to 65% of acquisition cost.
X	Salvage. Personal property that has some value in excess of its basic materiel content but which is in such condition that has no reasonable prospect of use for any purpose as a unit (either by the holding or any other federal agency) and its repair or rehabilitation for use as a unit (either by the holding or any other federal agency) is clearly impractical. Repairs or rehabilitation estimated to cost in excess of 65% of acquisition cost would be considered clearly impractical for purposes of this definition.

NOTE: The following are single digit, alpha/numeric Disposal Condition Codes. These Disposal Condition Codes are combined with the MILSTRAP Supply Condition Codes to form a Federal Condition Code. Federal Condition Codes can be found in appendix A-41.

CODE	TITLE	DEFINITION
1	Unused-good	Unused property that is usable without repairs and identical or interchangeable with new items from normal supply source.
2	Unused-fair	Unused property that is usuable without repairs, but is deteriorated or damaged to the extent that utility is somewhat impaired.

CODE	TITLE	DEFINITION
3	Unused-poor	Unused property that is usable without repairs, but is considerably deteriorated or damaged. Enough utility remains to classify the property better than salvage.
4	Used-good	Used property that is usable without repairs and most of its useful life remains.
5	Used-fair	Used property that is usable without repairs, but is somewhat worn or deteriorated and may soon require repairs.
6	Used-poor	Used property that may be used without repairs, but is considerably worn or deteriorated to the degree that remaining utility is limited or major repairs will soon be required.
7	Repairs re-quired - good	Required repairs are minor and should not exceed 15% of original acquisition cost.
8	Repairs re-quired - fair	Required repairs are considerable and are estimated to range from 16% to 40% of original acquisition cost.
9	Repairs re-quired - poor	Required repairs are major because the property is badly damaged, worn, or deteriorated, and are estimated to range from 41% to 65% of original acquisition cost.
X	Salvage	Property has some value in excess of its basic material content, but repair or rehabilitation to use for the originally intended purpose is clearly impractical. Repair for any use would exceed 65% of the original acquisition cost.
S	Scrap	Material that has no value except for its basic material content.
